To Our Valued Customers,

Dwyer Industries, Inc. is announcing a Price Increase on Malleable Iron Fittings and Schedule 80 Seamless Pipe Nipples to take effect on June 5, 2023. We have not increased these two product groups since July 2021. The industry saw a price increase on these products back in June 2022 that we did not follow.

We have tried to keep these increases as low as possible, with the Malleable Iron Fittings only increasing 5% and the Schedule 80 Nipples only increasing 7-1/2%.

These new List Price Sheets will be available on our website by May 5, 2023. Your standard Discounts / Multipliers will apply to these new List Prices. If you have any questions, please contact our office for assistance.

Thank You For Your Continued Support,

Steve Dwyer  
President
